Sample letters of support

Extracts from selected letters of support

“...pleased to advise that the Board of Golf WA in principle agrees with the outlined developments. ...we do believe there is potential to sell a shorter form of the game.... we do believe there is the capability for an upgraded venue south of the river...to also be successful in attracting “new” players to the game of golf.”

“Clublinks is very excited at the prospect of being involved in the RAF project, for its ability to change the delivery of golf and leisure services in the community. ...recognize many synergies with the operations from an audience and integration point of view. Golf, recreation and aquatic are enjoyed by people of all ages and backgrounds.....Clublinks is willing to partner with the City of South Perth for the RAF with operations and investment”
